A Warning.

And divers other causes are responsible for a lax condition in trade circles for the past few months. We calculated on good times: We have put in an enormous and strong line of FOOTWEAR, knowing our efforts would be appreciated; and here we are in July—not all the goods yet in.

A big pile of cash is not necessary to trade with us, as we carry all kinds and prices. We invite Shoe Critics to make a close examination. They are the biggest find of the year.

those who keep the hens. Honolulu people are great poultry eaters, but the price is too high for the man of average means to satisfy his appetite. The price is regulated by the supply and demand. DEMAND is ALWAYS STRONG while the supply is generally weak. LOOK AT THE CAUSE.

Young chicks are hatched and within a few days are covered with vermin. Disease follows and supply is nil. Price of broilers, consequently, goes up to \$1.00

Too much, you say.

WHERE'S THE REMEDY?

MEDICOL EGGS.

They are guaranteed to drive away any mites, lice or any other vermin that may be on the fowl or in the nest. The shell of the MEDICOL EGG is filled with POWERFUL DISINFECTANTS and will prevent disease.

No more blind chicks.

One Medicol Egg will answer for a nest egg and will bring beneficial results not obtainable in china eggs. One egg will last several months and retain its disinfecting power.

Good for song birds.

A Medicol Egg placed in a bird cage will free the bird from parasites in a short time.

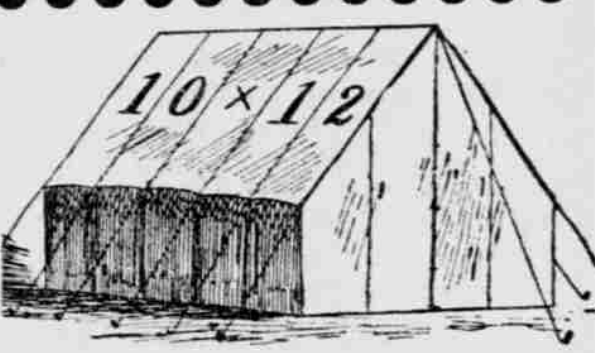

Mr. Allan Herbert of Honolulu is using these eggs with great success. They KEEP THE HENS HEALTHY.

The cost is trifling—anyone who raises chickens will find ONE MEDICOL EGG better than a dozen spray- and preparations and at one tenth the cost.
